## HYBRID PERPETUAL ROSES

The flowers are of very great size and beauty; produced in great profusion in spring, and to a considerable extent all summer. Their tall, erect habit fits them for ornamental hedges, center of large Rose beds, or clumps of shrubbery. They furnish us with deep, rich glowing colors, to be found in no other section of the family, and their flowers are also very much larger.

Frau Karl Druschki (White American Beauty). This pure white variety has long immense buds and perfectly double flowers. For bedding and for cutting it is the finest in its class.

**Gen. Jacqueminot.** Bright shining crimson, shapely buds and handsome blooms. The Jack Rose is noted for its good qualities.
